### The Worst Day In Virginia Beach

I never expected to leave Kyle's house in huge trouble and 1,000 of my parent's money wasted. So that day I went to Kyle's house. My mom asked me before I left if Kyle's parents were home, so of course I said yes, but really they weren't home. My mom drove me to Kyle's house and when I got, there she waited and watched me in until I got into the house. About thirty minutes later while were watching T.V I said to Kyle that we should go around the neighborhood riding on the golf cart, but he told me he got the keys taken away from him because he can't ride when his parents aren't home. I said, well do you know where they keys are, and he said yes so he said screw it, I'm getting the keys and were going riding. We were riding around the neighborhood we see some of our friends and were just chilling and listening to music on the golf cart. Then Kyle's like man I'm tired, do you want to drive and I was like of course! So we just switched spots and I started driving. So while I was driving he said we should go to the golf course because he had to show me the gator he saw yesterday in one of the ponds on the course. So I said sure I want to see a gator, so let's go. So I started to speed to about fifty miles per hour, and remember we are on a small golf course with a small sidewalk were riding on. Then out of nowhere while were driving these four men who were playing golf were on the golf cart coming at us on the sidewalk. So I'm going fifty on like a ten miles limit so I have to jerk my steering wheel to the side to dodge them, and we sputtered and started to twist into the grass on the course

and it started to flip because I jerked it to hard and we were flipping and flipping and flipping all the way towards the pond so while were flipping I saw the pond and I jumped out and the golf cat and Kyle both went into the pond. And the pond we went in happened to have a gator in it. So lucky Kyle swam fast enough to get out of there before the gator got close. So I had to call my mom and that was the last thing I wanted to do but I knew that she could helped, so she came and picked me and Kyle up but we couldn't get the golf cart out. I was in so much trouble and my parents had to buy Kyle and his family a new golf cart. I could never even think of getting in that much trouble again!
